Tony:

Per our phone conversation just now, Site team members in Superfund are requesting support for an international phone call tomorrow, Wednesday, August 8, 2012 at 11:30am Central Time (5:30pm London Time or "0" Time). Thank you for agreeing to support a clear connection between EPA Dallas office and the recipient of this call on international travel.

When I receive the land line telephone number from the prospective recipient of this call on international travel now, I will forward that number to you for assessment to determine the country code, and support for a clear connection.

Thank you,

Anyone know who would be the authorizer to give the clearance?

I can follow up with that person or we can just do this call when Curt comes back...
